

## NURSING HOME CASES AND ELDER ABUSE

FEES: For my fees regarding nursing home cases please click on the following link to see the fee table. Fees range from 30.0% to 40.0%. The range of fees is dependent upon the amount of work that must be done, in other words the fees vary depending upon whether your case settles, goes to arbitration or proceeds to a trial, but NEVER more than 40.0% for cases that require jury trials or bench trials (trials by Judge). In the event that your case involves a slip and fall at the nursing home or other non-medical and non-nursing issue the lower slip and fall / premise liability rate will apply. As always there is no fee or costs if there is no recovery. Also, there is never a fee or charge for consultations.

When our loved ones become old or otherwise unable to care for themselves, we are forced to trust nursing homes to provide the care our loved ones deserve. This is a great responsibility that requires great care. Unfortunately, nursing homes, at times fail to provide the proper care causing undue hardship, suffering and loss. Nursing homes must be held accountable for failing our loved ones. There is no greater injustice than losing the family matriarch or patriarch or special someone that we entrusted to the nursing home's care. Cases frequently arise for failing to timely seek treatment for ailments resulting in the delayed diagnosis of infections, the failure to properly treat wounds or bed sores resulting in infections or loss of limbs, the failure to appreciate gangrene, and the failure to seek medical attention in a myriad of situations. Cases also arise as a result of improper bathing and the failure to provide proper assistance during transfers resulting in falls causing broken bones and broken spirits (self-confidence).

While nursing home litigation can never reverse what happened, it can provide the means to help a victim better cope with the future and to try to prevent future mistakes so others do not have to suffer as our loved ones have.
